

SUMMARY

Full-stack developer specializing in Django and React. One of 2 engineers on a live municipal system in Oman. Delivered reporting, permissions and data-migration features now used daily by field inspectors. Computer Engineering graduate and national-level competitive programmer.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, Bash, HTML5, CSS3.
Backend: Django, Django Admin, Flask, FastAPI, REST API design and integration, Gunicorn, WSGI.
Frontend: React, Redux, Context API, React Hook Form, Vite, Tailwind, Bootstrap, SCSS, responsive design.
Databases: PostgreSQL, MySQL, SQLite, schema design, migrations, query optimization.
DevOps: Git, GitHub, Docker, Linux, Apache, Vercel, Railway, unit testing.
Concepts: OOP, MVC, REST, role-based access control, data structures and algorithms, Agile delivery.
Learning: Java, Spring Boot, Spring Data JPA..

WORK EXPERIENCE

Independent Developer | Sep 2025 - Present

Self-directed, Remote — *React, Django, Docker, Vercel, Railway.*

- Rebuilt a chest X-ray analysis frontend in React, replacing the 2024 original with a reusable component architecture.
- Redeployed a 1.3 GB containerized inference service and reconnected it to the rebuilt React client.
- Built a Spring Boot REST API with JPA entities, a service layer, transactional operations and validation, while learning Java.

Freelance Full-Stack Developer | May 2025 - Aug 2025

Rustaq Municipality, Oman — *Django, Django Admin, SQLite, Apache, shared hosting.*

Client-facing engagement for the Food Control & Licensing Department, delivered remotely.

- Reworked the reporting logic so that 4 inspection outcome types aggregate correctly across 3 reporting periods.
- Designed a multi-branch hierarchy giving a head office scoped data, separate users and 3 permission tiers across sub-branches.
- Led the database restructure into a two-tier company and branches model covering 800+ registered commercial facilities.
- Migrated legacy data from 3 source formats during the restructure, removing duplicate records and reshaping schemas.
- Delivered 2 export formats, automatic numbering and date-range filtering across 4 inspection form types.
- Replaced free-text entry with 3 validated input types in Django Admin, eliminating a recurring source of data errors.
- Partnered with the client through 2 specification review rounds, translating Arabic requirements into shipped features.

PROJECTS

Pet Society — Social Platform *Django, React, PostgreSQL, Tailwind* | 2025 · [repo](#) [live](#).

The platform supports posts, following, comments, likes and messaging. A Django backend serves the React frontend, built across 76 commits and deployed on Vercel.

AI Chest X-Ray Analysis Tool *React, Vite, REST API, Docker* | 2026 · [repo](#) [live](#).

A component rewrite replaced the 2024 original. The React client consumes a containerized inference API that returns heatmap overlays.

Movie Discovery App *React, Bootstrap, TMDB API* | 2025 · [repo](#) [live](#).

The app renders a supplied Figma design as a near pixel-perfect responsive UI. Features include dark mode and client-side search and filtering.

Django Blog Platform *Django, PostgreSQL, Bootstrap* | 2025 · [repo](#).

The blog supports multiple authors with authentication and role-based permissions. A customized Django admin handles categories, likes and comments.

EDUCATION

B.Sc. in Computer Engineering, GPA 3.0 | 2024

Arab Academy for Science, Technology and Maritime Transport, Alexandria.

Team graduation project: an AI-powered chest X-ray pneumonia classifier with visual heatmap overlays. Built the React frontend, the API integration and the container deployment.

CERTIFICATIONS AND TRAINING

Information Technology Institute (ITI), Full Stack Python Track | Mar 2025 – Aug 2025

6-month intensive: Django, React, PostgreSQL, Docker, Apache, Red Hat Linux, shell scripting, unit testing.

ALX Software Engineering Program, Frontend and Backend. | Jan 2025 – Aug 2025

Meta Frontend Developer Professional Certificate. | 2025

AWARDS

64th Place | 2020 — Egypt Collegiate Programming Contest.

Contestant | 2020 — Africa Collegiate Programming Contest.

4th Place | 2019 — University Programming Contest.
